

S2E Education Testimonials

Here's what Business Architects, Enterprise Architects, and other key stakeholders have to say:

Overall

"Wildly exceeded my expectations" – Project Business Sponsor

"We got in 3 days what would have taken us 6-9 months" – Senior Exec attending workshop.

"I was impressed with the quality of the class; the breath of the subject material, and; quality of artifacts in examples... I wish I had found (this workshop) two years ago."

"The S2E guide is valuable and easy to apply. Helps connect the dots. I wish I had this before we started (our business architecture initiative)."

"The leaders were energetic and engaging; kept energy level of group up!"

"It was Inspirational ... I was inspired"

Practical application

"Good mix of framework, practical activities ..., and incorporating examples with the tools... can immediately put into practice."

"Great tools to use in building our business architecture practice"

"It was much better than the overly complex TOGAF training. The S2E process is simpler, easier to understand and use."

"Impressive in its simplicity ... compared to the level of importance / impact."

"Received great tools and templates that can be applied immediately in the businesses."

"Very practical; relevant ... good use of real examples"

"The group breakout sessions ... these real world examples will help immensely back in the office"

Simplicity of tools and techniques"

"Relevant, timely (great tool set) logical, well sequenced. S2E (is) easy to understand."

"Application of tools and methodologies (practical, not academic or dogmatic)"
